Fresh out of Uni Dream Job
A fantastic opportunity to land your first job in the film and advertising industry.

We are looking for a talented Graphic Designer or similar graduate to work as a Junior Director’s Assistant at Goodoil Films. This is a unique opportunity to work with one of Australia’s top film production companies and build your portfolio with some of the world’s best brands and creative agencies.

Goodoil Films has a roster of award winning local and international television commercial directors. You will have the chance to work directly with some of the top creative minds in the business.

As a Director’s Assistant you will be working with our Creative Coordinator and Directors to pitch for new work. You will translate their creative approach to a script into a visual format by researching, referencing and curating a variety of visual mediums into a well-executed document. We are looking for someone that can flex their graphic design muscles and wow the pants off us with their keen eye and love for film and design.

You need to be able to take instruction and feedback well, whilst having the confidence and initiative to work independently and problem solve. You will be working on real briefs with real deadlines. You should be eager for a challenge and keen to learn new skills.

You will be working under the guidance of our Creative Coordinator and Director’s Assistant who have an extensive knowledge of the role and can train you up.

WHAT WE ARE LOOKING FOR

• A Graphic Designer film buff who is interested in working in advertising and film.
• Someone who understands both print and digital mediums
• Someone who understands the visual language of graphic design, typography, photography, fine arts etc and has a good eye
• Someone with the potential to further their skills in front end web development
• Someone who can take briefs from our Creative Coordinator and turn their words into visual gold
• Image research is part of the job so you will need to be a master explorer of the internet

MUST HAVES
Advanced skills in Adobe CC. InDesign and Photoshop are the primary programs used so you must be a whizz at these.

ADVANTAGEOUS BUT NOT ESSENTIAL
Skills in Adobe Illustrator, Adobe Muse, Front end web development skills (HTML+CSS) and Video Editing
